

Meritor Part

Meritor Parts - Meritor is a leading global supplier which is proudly built on a 100 year tradition of service and quality. They specialize in several integrated systems, modules and components to original equipment makers and the aftermarket for the transportation and industrial sectors.

Meritor values the needs of their customers to ensure their success while priding itself in the company's unique energy and believes this output of energy to be their aggressive advantage in their worldwide operations. Meritor starts with a culture that values diversity of individuals and their broad thought processes. Operating in 19 nations and employing over eleven thousand two hundred individuals, Meritor promotes collaboration and innovation among a team of knowledgeable experts.

By only employing future focused individuals, Meritor strongly believes these top-caliber workers would be able to quickly adapt to changing environments and demonstrate the commitment and performance needed to be able to reach results in the competitive materials handling market. The company empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor offers all of their workers different chances for personal and professional growth.

Their Advanced Engineering team is at the forefront of parts and system engineering which include drivelines, axles, braking and suspension systems meant for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is also responsible for supporting the requirements of all their worldwide engineering staff.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated around the world in 19 countries and in 5 different continents.

The supplier development network is specifically located in order to support new business growth. Regional teams are supported by international initiatives, quality systems and centralized specialties in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making in each aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability within each and every region. The team is likewise included transactional Green Belts who apply Six Sigma tools to business methods and implement lean techniques.
