

## Barrel Clamps

Barrel Clamps - A Barrel Clamp is really a mechanical or hydraulic accessory intended for a lift truck. It can be used so as to clutch the item you wish to transport with the forklift and is typically utilized for handling barrels, kegs and paper rolls. A few types of barrel clamp accessories even have a revolving function. For example, the rotate function enables the individual operating the forklift to be able to put in a vertically stored paper inside the horizontal intake of a printing press.
