

Forklift Electrical Parts

Forklift Electrical Parts - Lift trucks along with various forklifts can have particular labels utilized in some hazardous locations. The label indicates that this certain model of forklift meets the minimum standards of ANSI/UL 553 intended for electric forklifts or ANSI/UL 558 used for internal combustion engine forklifts.

The application for labels meant for lift trucks could be found in National Fire Protection Association NFPA 505 - Powered Industrial lift trucks including: Areas or Use, Maintenance and Operation, and Type Designations. Check with your local insurance provider and Fire Marshall for more information concerning the permitted uses of industrial powered forklifts in your application.

If the particular lift truck satisfies the outlined standards, labels could be put. A labeled forklift would show the type of designation placed on the nameplate and will have a properly corresponding label put.
