

Concrete Hopper

Concrete Hopper - The self-dumping hopper attachment can automatically start to both unload and release whenever the bumper release contacts the side of a dumpster. When dumping is completed, the hopper can go back to original locked and upright position. This piece of equipment is even presented with a cable which allows operation from the seat of the lift truck so as to have the choice of manually dumping the hopper. There is a locking chain provided so as to lock the hopper to the fork truck. This product is made with reliable and consistent robotic welds for maximum strength. The forklift dumping hopper even has a blue powder coat finish to be able to maintain durability.
